

# 50-YEAR INDEX TO MARYLAND ARCHEOLOGY VOLUMES 1-50 • 1965-2014

*Compiled by Dennis C. Curry*

## Introduction

This index to *Maryland Archeology* is an update to the 25-year index published in 1991. It follows the same format—an AUTHOR INDEX and a KEY WORD INDEX—and is aimed at making the journal a more useful research tool.

The journal of the Archeological Society of Maryland, Inc. began in 1965 (one year after the Society formed) under the title *The Journal of the Archaeological Society of Maryland, Inc.* Frederic M. Stiner served as the first Editor and produced three volumes before his death in January of 1968. Paul Cresthull succeeded Stiner, initiating a March/September publication schedule and renaming the journal *Maryland Archeology*, subtitled *Journal of the Archeological Society of Maryland, Inc.* (note the updated spelling of “archeology” and “archeological”). Cresthull continued as Editor for the next 21 years until his sudden death on August 9, 1989; his last journal was Volume 24, Number 2, September 1988. Subsequently, the ASM Publications Committee, chaired by Richard B. Hughes, produced Volume 25, Number 1, dated March 1989. The committee also published a series of papers previously presented at the 1984 Eastern States Archeological Federation meetings held in Annapolis as a double-issue entitled “New Perspectives on Maryland Historical Archaeology” and serving as Volume 26, Numbers 1&2, March and September 1990. At the December 1989 ASM Board meeting, I was appointed Editor; my first issue (Volume 25, Number 2, September 1989) appeared in October of 1992. My tenure continued through Volume 49, Number 2, September 2013, which was issued in May of 2014. Following my resignation as Editor, the ASM Board appointed an Editorial Committee to assume editorial responsibilities. Despite a number of organizational meetings, allocations of duties, and even some initial editing of manuscripts, the committee failed to gel and was unable to produce an issue. Nonetheless, a member of that committee, James G. Gibb, stepped up to serve as interim Editor. Gibb produced Volume 50, Number 1, May 2014 (issued in May of 2017), Volume 50, Number 2, December 2017 (issued in November 2018), and Volume 51, Numbers 1&2, July 2018 (also issued in November 2018). Commencing with Volume 52,

Matthew D. McKnight assumes the role of Editor of *Maryland Archeology*.

The idiosyncrasies mentioned in the 25-year index continue. Pagination in the first three volumes varied from individually paginated articles to consecutive pagination across all three volumes. With Volume 4, Cresthull initiated individual issue pagination, which continues today. However, with Volume 50(2) pagination started on the title page, thereby relegating the first page of the first article to page 4. Volume 50(1) regrettably used the title *Maryland Archaeology, Journal of the Archaeological Society of Maryland, Inc.*, an error corrected in Volume 51(2). Most confusingly of all, however, was the dating of individual issues. When Cresthull established a March/September publication schedule beginning with Volume 4, issues bore those dates regardless of when they were actually published. The transition from Cresthull’s editorship to my own resulted in issues being published out of order—25(1), 26(1&2), and 25(2). Later during my tenure, a lack of manuscripts caused publication to fall behind schedule. When this happened, I used the next expected issue date on the cover, and included an “issued on” date on the title page (for instance, “March 2007 [*Issued September 2008*]”). This would allow society members (and libraries and institutional members) to keep track of their subscriptions despite delays in publication. With Volume 50(1), the March/September system was abandoned, although the expected publication year (2014) was retained (albeit without an [*Issued May 2017*] disclaimer). Volume 50(2) replaced the expected publication year (2014) with 2017 (even though it was issued in November 2018; this is denoted “2017\*” in the indices below), and Volume 51(1&2) replaced the expected publication year (2015) with 2018, the year it was issued. Sadly, somehow, in all this confusion we have lost three complete volumes over the years 2014-2018, and I do not know if there are plans to correct this situation.

At any rate, I hope this index allows readers to explore the exciting world of Maryland archeology presented in this journal over the last half century.
